SUBJECT: Transmittal of Documents on International Tube Cartel

TO: Lt. General Lucius D. Clay
Deputy Military Governor

FROM: Colonel B. Bernstein
Director, Finance Division

There are transmitted herewith certain documents on the International Tube Cartel (International Rohren Gemeinschaft). These documents were located by a Finance Division investigative team in the files of the Walzstahl Verband (formerly the Stahlwerks Verband) at Dusseldorf. Given proper translation and analysis it is believed that they will throw considerable light on the pre-war organization and operation of the Tube Cartel and the participation of American firms therein. This material is of direct interest to the Department of Justice.

The Tube Cartel, as set up in 1928, was composed of the Continental, English, Canadian and American groups representing manufacturers of tubes for oil, gas, water, locomotives and boilers. It allocated quotas and set prices for participating groups in the various export market areas. The domestic markets were reserved exclusively to the respective groups. The Cartel broke up in 1935 but resumed partial operation in 1936 under the name of the International Tube Convention. This Convention, in existence as late as August, 1940, set prices but had nothing to do with establishing quotas.

The Quota Cartel was partly reconstituted in 1937 when a three bloc agreement between the German, French and British groups was concluded. Subsequently, in 1938, it was enlarged to the Six Bloc agreement which brought in most Continental manufacturers. The American group did not participate in the Quota Cartel although negotiations with them were carried on up to September 1939.

The following are the documents included in this transmittal:

A. Export Agreement between the Continental Tube Manufacturers and the Steel Export Association of the U. S., 1928.

B. Oil Agreement between the Continental Tube Manufacturers, the Steel Export Association of the U. S., Canadian and British manufacturers, 1928.

C. Minutes of Price Committee meetings held in 1933 and 1934 under the Export Agreement.
